Treatment

VoluDerm is a cutting-edge micro needling RF technology that has been clinically proven to reduce the signs of aging and rejuvenate the skin, Fine micro-needles using RF energy smoothly penetrates the skin to reach the mid-dermis layer. The micro-needles and the RF thermal energy create micro-wounds in the dermis which trigger the body's natural wound healing mechanism. VoluDerm technology is effective and suitable to all skin types and ethnicities. Effective treatments with minimal discomfort, bruising, bleeding and ZERO downtime
